SUMMARY

- A junior developer driven by the incredible potential of technology. With a diverse skill set in web and mobile development and cloud computing, I am passionate about overcoming obstacles and offering unique problem-solving perspectives. My dedication to continuous learning and innovation fuels my ambition to make a positive impact on the community using technology.

PROFESSIONAL EXPERIENCE

February 2024 - June 2024

Ark-x Academy -Web Developer Intern; Casablanca, Morocco

- Designed and implemented a responsive and intuitive user interface using React.js, facilitating smooth navigation.
- Developed backend APIs using Node.js and Express.js, enabling seamless communication between the frontend and the MongoDB database.
- Implemented geolocation features to provide customers with products based on their location, improving personalization and relevance.
- Collaborated with the team to discuss project updates, progress, and challenges, ensuring effective communication and problem-solving.

April 2023 - June 2023

Public Laboratory for Tests and Studies - Mobile Developer Intern; Casablanca, Morocco

- Developed a mobile application using Flutter for the frontend and Spring Boot for the backend, aimed at extracting client statements from the company's Oracle database.
- Designed and implemented an intuitive user interface within the Flutter frontend, optimizing the user experience and ensuring smooth navigation and interaction.
- Designed and implemented RESTful APIs in Spring Boot to enable seamless communication between the mobile app and Oracle database.
- Utilized Java Persistence API (JPA) to establish efficient data models, facilitating interaction between the app and the database.
- Participated in regular meetings to discuss project updates, progress, and challenges, fostering effective communication and collaborative problem-solving.
