PROFESSIONAL EXPERIENCE

July 2014 – June 2016

Public Laboratory for Tests and Studies - Software Development Intern; Casablanca, Morocco

- Developed a mobile application using Flutter for the frontend and Spring Boot for the backend, aimed at extracting client statements from the company's Oracle database.
- Designed and implemented an intuitive user interface within the Flutter frontend, optimizing the user experience and ensuring smooth navigation and interaction.
- Empowered users to select individual clients, company departments, and statement types (lettered or unlettered), enhancing the company's decision-making processes.
- Designed and implemented RESTful APIs in Spring Boot to enable seamless communication between the mobile app and Oracle database.
- Utilized Java Persistence API (JPA) to establish efficient data models, facilitating interaction between the app and the database.
- Participated in regular meetings to discuss project updates, progress, and challenges, fostering effective communication and collaborative problem-solving.
